Progress Report Instructions

Master's Degree

The progress report must include the sections listed below and be no more than 3 pages (not including a list of sources).

Sections:

1. Research Title

2. Brief Scientific Background

3. Research Objectives

Include the hypothesis and specific aims, approximately five sentences)

4. Research Results

Present the results achieved so far in relation to the objectives stated in section 3. If any changes have been made to the original research objectives, please explain the reasons for these changes.

5. Goals for the Upcoming Semester

Should be aligned with the results and progress described in section 4

6. Potential Delays

Are there any issues that might delay the timely completion of your degree? If so, please elaborate.
